

IT TAKES A COMMUNITY

One community health center serving 13,000 people.

For 35 years.

Sustained by a community that knows
no geographic boundaries...

This year Fenway Community Health has created a **Small Business Partnership Program** to ensure that everyone—small businesses as well as large—has a role to play in sustaining a truly one-of-a-kind community institution. **The Small Business Partnership**, valued at \$1,500, provides a range of electronic, print media, and web-based promotion.

Partnering with Fenway is a win-win.

We provide real marketing and advertising benefits that exceed those offered through traditional venues. Because when you partner with us you are not just promoting

your business, you are promoting the value of investing profit back into the community. And our constituents pay attention to the businesses that stand up for the right to be healthy.

For more information about Fenway's Small Business Partnership Program benefits, please contact Betty Herschman, Manager of Corporate & Foundation Relations, at 617-927-6362 or by email: bherschman@fenwayhealth.org

Because it takes a community.
